

Yousef Yousry

Cairo, Egypt | 0122 316 0942 | yousefyousry06@gmail.com | in/YousefYousry | Protofolio

Professional Profile

Data Analyst with strong experience in data analysis, data cleaning, and visualization. Proficient in SQL, Python, and Power BI for extracting, transforming, and analyzing data to uncover trends and actionable insights. Experienced in KPI tracking, dashboard development, and communicating data findings clearly to stakeholders to support data-driven decision-making.

Education

Ain Shams University

Faculty of Computer and Information Science, *Information Systems Department*

2021 – 2025

Cairo, Egypt

Work Experience

Application Support Specialist — Gold Era

Mar 2026 – Present

- Provided technical and application support to ensure smooth system operations and issue resolution.
- Monitored application performance and assisted users in troubleshooting system-related problems.
- Collaborated with teams to improve workflow efficiency and system reliability.

Storekeeper Oracle ERP — Orascom

Jan 2026 – Mar 2026

- Managed inventory operations and tracked stock movement using Oracle ERP systems.
- Maintained accurate inventory records and generated operational reports.

Courses

Microsoft Power BI Specialist – Rwad Misr Scholarship

29 Nov 2025 – 18 May 2026

- Collected, analyzed, and visualized data from multiple sources using Azure and Power BI to identify trends and patterns.
- Built dashboards, reports, and predictive models using machine learning algorithms to support informed business decisions.
- Managed data quality issues and collaborated with business stakeholders to understand and fulfill their data needs.

Business Intelligence Development – Summer Internship

10 Aug 2024 – 07 Sep 2024

- One-month training at ITI covering Data Warehousing, SQL Server fundamentals, and advanced SQL queries.
- Hands-on experience with Microsoft SQLBI, Power BI, Tableau, statistics, and Excel analysis.
- Tools: Excel, SQL, Tableau, Power BI

Projects

Healthcare Operations & Financial Dashboard — Data Analytics Project

- Developed a Power BI dashboard that analyzes **55K records** to track **\$1.2B** in billing, hospital operations, and patient admission trends.
- Performed ETL and data modeling to visualize KPIs such as average length of stay and insurance distribution, supporting data-driven healthcare decisions.
- Tools: Power BI (Power Query, DAX)

AI-Based Expert Recommendation System (Graduation Project)

- Designed a RAG-based system to connect users with experts using Python and Hugging Face.
- Conducted EDA to identify demand patterns and defined KPIs to measure system effectiveness.

Customer Churn Prediction — Data Science Project

- Built and evaluated machine learning models (Random Forest, SVM, KNN) to predict customer churn and identify at-risk customers.
- Data preprocessing, feature engineering, and model evaluation performed to improve prediction accuracy.
- Tools: Python

Kiva Loans Business Intelligence Project

- Cleaned and analyzed data using Python to ensure accuracy and consistency.
- Performed feature engineering and evaluation to improve insights quality.
- Built interactive dashboards in Power BI to track key metrics and support data-driven decisions.
- Tools: Python, Power BI

Statistical Inference Project

- Analyzed student performance data to identify factors affecting performance using statistical techniques.
- Tools: R

Technical Skills

- **Data Analysis & BI:** SQL, Power BI, Tableau, Excel, SSIS, SSAS, SSRS
- **Programming:** Python, C++, Java, OOP, SQL, Algorithms.
- **UI/UX:** Figma, Prototyping, Wireframing.
- **Tools:** Git, GitHub, Google Colab, Jupyter Notebook.

Certifications & Languages

- **DataCamp:** SQL (Intro, Intermediate, Joining Data)
- **DataCamp:** Python (Intro, Intermediate)
- **HackerRank:** SQL Basic
- BI Development — ITI
- **Languages:** English (Intermediate), Arabic (Native)
